PROFESSIONAL SUMMARY

Data Analyst Intern and Computer Science graduate with hands-on experience in data cleaning, exploratory data analysis, feature engineering, KPI analysis, and dashboard development. Skilled in Python, Pandas, SQL, Advanced Excel, Power BI, and Tableau, with experience analyzing 261K+ time-series records and developing analytics solutions using Streamlit and business intelligence tools.

TECHNICAL SKILLS

Programming : Python

Data Analysis : Advanced Excel, Power Query, Data Cleaning, Data Transformation, Exploratory Data Analysis

Databases : SQL, MySQL

Business Intelligence & Visualization : Power BI Desktop, Tableau, Matplotlib, Seaborn

Python Libraries : NumPy, Pandas

AI Tools : ChatGPT, Claude AI, Antigravity

Developer Tools & IDEs : Git, Git Bash, GitHub, VS Code, Anaconda, Jupyter Notebook, Antigravity IDE

EXPERIENCE

Unified Mentor Pvt. Ltd.

May 2026 – Present

Data Analyst Intern

Gurugram, Haryana

- **Analyzed 261K+ ferry ticket sales and redemption records** spanning 2015 – 2025 to evaluate passenger demand patterns and movement trends for Toronto Island Park ferry operations.
- Performed **data cleaning, datetime transformation, feature engineering, and exploratory data analysis** using Python and Pandas to examine hourly, daily, weekly, and seasonal demand patterns.
- Analyzed ticket sales, redemptions, net passenger movement, peak demand windows, and rolling averages to support data-driven ferry scheduling and operational planning.
- Developed an **interactive Streamlit analytics dashboard** with KPI cards, time-series visualizations, date and time filters, and peak versus off-peak demand comparisons.

Celebal Technologies

April 2024 – June 2024

Front-End Developer Intern

Noida, Uttar Pradesh

- Developed 10+ responsive and mobile-friendly web pages using **HTML5, CSS3, and JavaScript** while contributing to a live web project and following modern UI/UX standards.
- Optimized CSS structure and refactored JavaScript code, improving **page load performance by 25%**.
- Collaborated in an Agile development environment, participated in sprint reviews, and used Git for version control and team-based development.

PROJECTS

Cab Booking System | GitHub

Tech Stack: SQL, MySQL

- Designed **normalized database schemas** to improve data integrity and support scalable transaction management.
- Developed and optimized SQL queries using indexes and stored procedures, reducing query execution time by **30%**.
- Implemented **role-based access** control to secure customer and driver information.

D-Mart Sales Analysis | GitHub

Tech Stack: Power BI, DAX

- Developed **interactive KPI dashboards** in Power BI to analyze revenue growth, profit margins, customer segments, and sales performance.
- Created **DAX measures** for year-over-year growth and cumulative sales calculations.

- Analyzed product-level sales performance and identified the **top 10 products contributing 60% of total sales**, supporting inventory optimization recommendations.

Automobile Data Preprocessing & Visualization | GitHub

Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook

- Cleaned and preprocessed an automobile dataset containing 205 records and 15 vehicle attributes by handling missing values, converting data types, applying median imputation, and validating duplicate and categorical records.
- Performed exploratory data analysis and statistical analysis to examine vehicle pricing, fuel efficiency, engine performance, body styles, and brand-level trends.
- Conducted correlation and relationship analysis to identify key factors influencing vehicle prices, including engine size, horsepower, vehicle width, and fuel efficiency.
- Created business-focused visualizations, including correlation heatmaps, bar charts, and scatter plots with regression analysis, to communicate pricing and performance insights.

EDUCATION

Noida Institute of Engineering and Technology

Nov 2021 – June 2025

Bachelor of Technology in Computer Science and Engineering

Greater Noida, Uttar Pradesh

- **Relevant Coursework:** Data Structures and Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Engineering

IT Vedant

Dec 2025 – Dec 2026

Masters in Data Science And Analytics with AI

Lucknow, Uttar Pradesh

- **Relevant Coursework:** Data Analysis, SQL for Data Management, Advanced Excel, Power BI and Data Visualization, Python for Data Science, Machine Learning, Statistics for Data Analytics

CERTIFICATIONS

Professional Certifications | Github

- | | |
|---|----------|
| • SQL Mastery – IT Vedant | Feb 2026 |
| • Power BI Essentials – IT Vedant | May 2026 |
| • Advanced Excel – IT Vedant | Jun 2026 |
| • Tableau Essentials – IT Vedant | Mar 2026 |
| • Python for Data Science, AI & Development – IBM via Coursera | May 2022 |
